Upon arrival at the Grid, drivers should take up their positions as quickly as possible and, as soon as the last car is in position, the 5-second board will be displayed before the red lights are shown, followed between 3 and 5 seconds later by the red lights being extinguished denoting the start of the race.

- Any car which falls more than 6 car lengths behind the row in front during the Pace Car Lap(s) thus being judged as penalising all following cars at the startline will be subject to a penalty unless it is the result of mechanical problem in which case the driver should raise an arm. Only under these circumstances may following cars overtake that car before the start line. Any infringements of the race start procedure may result in a time penalty of up to 60 seconds.

Only cars running at competitive racing speed when the red flag is displayed, will be allowed to take part in the restarted race and 'Parc Fermé' conditions will apply between the red flag being shown and the start of the restarted race.

The grid for the restarted race will be the order in which the cars passed the Finish Line at the end of the lap preceding the lap on which the red flag was shown and the result of the race will be the order in which the cars cross the Finish Line when the chequered flag is shown at the conclusion of the restarted race.
